FROM: Gil H. Harden
      Assistant Inspector General for Audit

SUBJECT: Prior OIG Audits Relevant to RUS’ Infrastructure Funding

As you are aware, the Infrastructure Investment and Jobs Act, Pub. L. No. 117-58 (IIJA), signed on November 15, 2021, provided the U.S. Department of Agriculture (USDA) more than $8.3 billion in funding. Of this amount, IIJA provided $2 billion for the Rural Utilities Service’s (RUS) Distance Learning, Telemedicine and Broadband Program.

As part of the Office of Inspector General’s (OIG) oversight responsibility, one of our first tasks was to review1 the results of prior OIG audits that were relevant to the RUS broadband funding2 provided by IIJA. This prior work examined prior RUS broadband programs as well as infrastructure funding for Substantially Underserved Trust Areas (SUTA). Based on our review, we identified the following findings that RUS should consider to ensure activities and programs continue to operate with the proper control environment in order to remain effective and operationally efficient. According to information maintained by the Office of the Chief Financial Officer (OCFO), the recommendations associated with these prior audits have been implemented.3 As further described below, we are currently evaluating RUS’ Rural eConnectivity Pilot Program (ReConnect Program).

---

1 We performed this review as a non-audit service. A non-audit service, also known as a consulting service, is a service other than an audit, attestation engagement, inspection, evaluation, or investigation. A non-audit service consists of tasks or services consistent with auditors’ skills and expertise that do not create a threat to auditor independence. Therefore, the data and information provided were not verified or analyzed, and no audit procedures were performed on them. The report compiles information from the previously published OIG reports or communicates the objectives of current work-in-process.

2 OIG has not performed work related to RUS’ distance learning or telemedicine programs.

3 We based this determination on information reported in OCFÓ’s Audit Follow-up Tracking and Reporting System as of March 7, 2022.
• **Infrastructure Funding for SUTA**

RUS and Rural Development administer rural infrastructure programs that provide assistance to Native American governments and communities, also known as SUTAs. OIG concluded that RUS had adequate controls in place regarding its implementation of the SUTA provisions and did not identify any instances of ineligible applicants receiving benefits designated for SUTAs.

However, OIG identified areas where RUS and Rural Development could better track their efforts to meet their vital goal of providing assistance to Native American governments and communities in trust areas. Specifically, we found that RUS’ application system did not track: (1) the number of loans and grants made specifically to Native American communities in SUTAs; or (2) whether SUTA provisions were applied to these loans and grants. Additionally, in two States we reviewed, Rural Development officials did not document their outreach activities to SUTAs in their designated system of record.

According to RUS, implementing SUTA provisions was critical to its broader efforts to make all programs more accessible to tribal governments and communities. Thus, we concluded that RUS and Rural Development could more easily demonstrate progress in making loans and grants to SUTAs and demonstrate that outreach was conducted in a timely and equitable manner by improving their ability to track activities in their information systems.

• **RUS’ ReConnect Program**

In 2018, Congress established the ReConnect Program to encourage the expansion of broadband services to rural areas by awarding grants and low-interest loans to eligible broadband service providers in underserved areas. The ReConnect Program offers unique federal financing and funding options in the form of loans, grants, and loan/grant combinations to facilitate broadband deployment in areas of rural America that do not currently have sufficient access. Our current audit will determine if: (1) RUS awarded ReConnect funding to eligible applicants and projects, and (2) the evaluation criteria were accurately used to score and rank applications when awarding funds. This audit will also support and inform OIG’s oversight of the $2 billion in funding from IIJA for the ReConnect Program and the cost of broadband loans.

Our current audit is focused on RUS’ award processes for applicant eligibility and evaluation in the ReConnect Program. This work allows us to consider how the ReConnect Program addresses any applicable concerns we raised in our prior audits of earlier broadband programs. These concerns included such matters as the adequacy of program guidance and controls, the level of service to rural areas, and the sufficiency of access to broadband services.

---

5  Audit 09601-0001-23, *Rural eConnectivity Pilot Program (ReConnect Program)—Award Process*. This work is currently in progress.
This memorandum contains publicly available information and will be posted in its entirety to our website (http://www.usda.gov/oig) in the near future.

How to Report Suspected Wrongdoing in USDA Programs

Fraud, Waste, and Abuse
File complaint online: www.usda.gov/oig/hotline.htm

Monday–Friday, 9:00 a.m.–3:00 p.m. ET
In Washington, DC 202-690-1622
Outside DC 800-424-9121
TDD (Call Collect) 202-690-1202

Bribes or Gratuities
202-720-7257 (24 hours)

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA’s TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at How to File a Program Discrimination Complaint and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.
