

USDA COVID-Related Procurement Dashboard

Office of Analytics and Innovation

The USDA COVID-Related Procurement Dashboard allows stakeholders to interact with USDA’s COVID-related procurement actions. This interactive dashboard displays COVID-related procurements the National Interest Action identified and added to the Federal Procurement Data System (FPDS) in March 2020. Additional public data from the System for Awards Management (SAM) were added to provide information about vendors.

See State award amounts, search for a particular vendor or category of product or service, or view awards granted to USDA by agency. Procurement actions are mapped by the performance location zip code centroid.

For Questions: Erin Grimm, Assistant Director Analytics Solutions, Office of Analytics and Innovation, U.S. Department of Agriculture Office of Inspector General (<mailto:erin.grimm@oig.usda.gov>).
